OBJECTIVE

Motivated and analytical Computer Science student with a strong interest in Software Development, Artificial Intelligence, and Cybersecurity. Seeking internship opportunities to apply academic knowledge, enhance technical and problem-solving skills, gain practical industry experience, and contribute effectively in a professional and collaborative environment while continuously learning emerging technologies.

SKILLS

- Programming: Python, C++, PHP
- Web Development: HTML, CSS, JavaScript, PHP
- Database Management: MySQL, SQL Server
- Microsoft Office: Word, Excel, PowerPoint, Access
- Networking: TCP/IP, LAN/WAN, Network Troubleshooting, Cisco Packet Tracer
- AI: Generative AI and Artificial Intelligence Fundamentals

EDUCATION

2024 - 2028
(Expected)

- **National University of Pakistan**
BS in Computer Science
CGPA: 3.35

2022 - 2024

- **Wah College of Accountancy Wah Cantt**
Higher Secondary School Certificate
Percentage: 69%

2020 - 2022

- **Govt Boys High School Dhirkot Sattian Murree**
Secondary School Certificate
Percentage: 70%

CERTIFICATIONS

- Web Development Certificate from NAVTTC
- Python Programming Certificate from Meta
- Cyber Security Fundamentals Certificate from Google
- AI Certification from DeepLearning.AI and Google
- Networking Academy Learn-A-Thon 2026 Award from Cisco Networking Academy

PROJECTS

- **OmniConvert**
Designed and developed OmniConvert, a responsive web-based utility engine built with vanilla JavaScript, HTML5, and CSS3, featuring optimized algorithms for real-time computational unit conversion across multi-device viewports.
- **Bank Management System**
Developed a secure web-based Banking Management System using PHP, MySQL, React, and Tailwind CSS. Implemented role-based access control for admin, manager, and customer with features such as authentication, account management, fund transfers, transaction processing, and dashboards. Applied DBMS concepts including ACID properties, concurrency control, triggers, views, and secure password handling to ensure data integrity and security.
